

The Gathering Storm over the Foreshore & Seabed

Why it must remain in Crown Ownership

An informative 110 page book by **Dr Hugh Barr**, the well known outdoor recreation advocate. The book digs into the issues behind the massive U-Turn by John Key's National Government, which now supports extensive privatisation of the Foreshore and Seabed to Maori tribes, after National was strongly opposed to it at the 2005 Election.

This issue is one of the most important facing New Zealand for many years, because of the massive potential transfer of wealth and power. The book provides a personal view on why the Government is undertaking this massive privatisation of public resources, and locking the non-tribal public out of future management of New Zealand's foreshore and seabed as well as compromising free public access.

You may order the book directly by sending \$20/copy to Tross Publishing, PO Box 22-143 Khandallah, Wellington 6441
